Baseline Labial Salivary Gland Biopsy Results Form

1. Unstained slide available? *yes* *no*
2. Stained slide received? *yes* *no*
3. Stained slide diagnostically satisfactory? *yes* *no*
4. Number of glands on slide:
5. Diagnosis:
- Focal lymphocytic sialadenitis
 - Focal/sclerosing lymphocytic sialadenitis
 - Consistent with MALT lymphoma
- Go to item 12**

If NO to BOTH, go to Pathologist Initials

Stop. Retrieve and stain unstained slide and proceed. If no diagnostically satisfactory slides are available, go to Pathologist Initials

- Within normal limits
 - Non-specific chronic inflammation
 - Sclerosing chronic sialadenitis
 - Granulomatous inflammation
- If any of these diagnoses, go to Pathologist Initials**

6. Number of lymphocytic foci:
7. Number of squares at 4x:
8. Area of salivary gland tissue (mm²): = item 7 / 17.36
9. Is the specimen large enough to support focus score calculation (i.e. ≥ 4 mm²)? *yes* *no*
- Go to item 12**
10. Focus Score: = (item 6 / item 8) x 4
11. How many glands have confluent foci?
12. Are germinal centers present? *yes* *no*
13. Are epimyoeplithelial islands/ductal hyperplasia present? . *yes* *no*
14. Fatty replacement? *yes* *no*
