Baseline Labial Salivary Gland Biopsy Results Form

1. Unstained slide available? *yes* *no*
2. Stained slide received? *yes* *no*
3. Stained slide diagnostically satisfactory? *yes* *no*
4. Number of glands on slide:

If NO to BOTH, go to Pathologist Initials

Stop. Retrieve and stain unstained slide and proceed. If no diagnostically satisfactory slides are available, go to Pathologist Initials

5. Diagnosis:

- Focal lymphocytic sialadenitis
- Focal/sclerosing lymphocytic sialadenitis
- Consistent with MALT lymphoma

Go to item 12

- Within normal limits
- Non-specific chronic inflammation
- Sclerosing chronic sialadenitis
- Granulomatous inflammation

If any of these diagnoses, go to Pathologist Initials

6. Number of lymphocytic foci:

7. Number of squares at 4x:

8. Area of salivary gland tissue (mm²): = item 7 / 12.53

9. Is the specimen large enough to support focus score calculation (i.e. ≥ 4 mm²)? *yes* *no*

Go to item 12

10. Focus Score: = (item 6 / item 8) x 4

11. How many glands have confluent foci?

12. Are germinal centers present? *yes* *no*

13. Are epimyoeplithelial islands/ductal hyperplasia present? . *yes* *no*

14. Fatty replacement? *yes* *no*
